

Rainer Naroska Engineering is a worldwide leading manufacturer of machines and turnkey production lines for the metal packaging industry in North Rhine-Westphalia. The internationally oriented, medium-sized enterprise is looking for YOU as soon as possible as a

Designing engineer for tools (m/f/d)

working full-time for our plant Lemgo/North Rhine-Westphalia

Your profile:

- successfully completed technical training or engineering studies
- extensive experience in constructive tool making
- good knowledge of design systematics and manufacturing technology
- safe handling of 3D-CAD (SolidWorks or Inventor)
- very good team skills, willingness to learn and a goal-oriented working style
- adherence to deadlines and cost-conscious thinking
- knowledge of English desirable

Your tasks:

- conception, development and design of complex tools for special machines
- further development and new construction of customer-specific special solutions
- creation of drawings, individual parts and assemblies
- creation of parts lists and article maintenance
- documentation of the necessary calculations and design criteria during the development process

We offer you:

With us you can expect a secure and versatile job with a high degree of personal responsibility and an attractive salary. In a pleasant working environment with short decision-making processes, you will be part of an experienced team that is valued worldwide for its special service orientation and expertise.

Get started and apply now!

Use our application form to quickly send in your documents – and convince us that you are the right candidate. Of course you can also send in your complete application documents via e-mail, addressed to our management (karriere@naroska.com).
